During the year, the association conducted a wide variety of programmes for the development of the college. Some of the programmes are listed below;

Mobile Phone Library

As a result of the widespread Covid pandemic, regular offline classes were suspended and all educational institutions in Kerala switched over to online education. Most of our students hail from extremely poor financial backgrounds and hence could not afford to buy a computer or mobile phone for attending online classes. This was when the Alumni Association rose to the occasion and suggested this unique plan to provide mobile phones for deserving students so that they can resume their classes online. The staff of our college, Alumni and retired staff contributed generously and we were able to buy around 60 mobile phones. Hon Minister for Higher Education, Dr. R. Bindu, formally inaugurated the program online on 24 July 2021, 3 pm. P. Balachandran, MLA presided over the function. A survey was conducted among the students to select the most deserving ones among them and the phones were handed over to them. The scheme would continue as a mobile phone library, wherein students who complete their course would return the mobile back to the college. The next batch of deserving students can use them again.

Cycle Challenge

As part of the Golden Jubilee Celebrations of our college, the Alumni Association organized a program called Cycle challenge. Our students usually make use of private buses as means of transportation. As there are not enough number of buses plying in the route, any students find it difficult to reach college on time. They have to wait for long hours to get back home as well. It is at this juncture that the alumni Association came up with this novel idea of providing cycles to the needy students. As per the information collected by the Principal, Smt Ambika, it was found that around 150 students needed bicycles. The teaching staff of the college, Alumni, retired staff and various organizations contributed generously for this venture and around 5 lakh rupees was collected. In the first stage around 50 cycles were handed over to the students. Hon Minister for Higher Education, Dr. R. Bindu inaugurated the formal function of

Cycle Challenge on 26 March 2022. Cycles which have a number as well as the name of our college printed on them were distributed to the students. They were requested to return the cycle once their course is over. In addition to solving the transportation problem of students, the scheme aims to instill environmental awareness by using non polluting vehicles for transport. It also enhances the physical and emotional well being of students. It is with pride that we acknowledge the fact that our college is the first of its kind to execute such a unique program as Cycle Challenge.
