World Population Day

The PG and Research Department of Economics organized a programme in observance of **World Population Day** on **14 July 2026**. World Population Day is observed annually on **11 July**, as designated by the United Nations, to create awareness about global population issues and their social, economic, and environmental implications. The objective of the programme was to enhance awareness among students about population growth, its impact on the economy, and the opportunities and challenges associated with population growth in both the Indian and global contexts.

The programme commenced at **10:30 a.m.** and was inaugurated by the Principal, **Prof. (Dr.) Ramya R.** In her inaugural address, she highlighted the significance of India's growing population, its impact on economic development, and the role of the younger generation in addressing population-related challenges. She also explained the relevance of **Thomas Robert Malthus's Theory of Population** and its continuing significance in understanding population dynamics.The programme began with a welcome address by **Dr. Smitha R., Coordinator**, and was presided over by **Dr. Soni T. L., Head of the Department of Economics**.

The event was organized and conducted by the students of **Fifth Semester B.A. Economics Honours**. As part of the celebration, they arranged an informative **exhibition** on population-related themes and conducted a **quiz competition** to promote awareness and encourage student participation.

Mr. Rajun T. R., Third Semester M.A. Economics student, emerged as the winner of the quiz competition.

The programme successfully created awareness among students about population issues and encouraged them to understand the economic, social, and developmental dimensions of population growth.
